

### **NATIONAL SUGAR INSTITUTE, KANPUR**

Three days of the training program on "Validation & Efficient Operation of Effluent Treatment Plants in Sugar Factories" commenced at National Sugar Institute, Kanpur. 100 technical personnel from sugar factories from Uttarakhand, Haryana, Uttar Pradesh and Bihar

are taking part in the program. Inaugurating the program, Prof. Narendra Mohan, Director, National Sugar Institute, Kanpur stressed that "not only to comply with the norms of effluent discharge as per Pollution Control Boards but also to safeguard the environment as a part of our duty, the sugar factories are required to come forward to ensure discharge of treated effluent as per norms maintaining parameters related to pH, TSS and BOD".

The training program was addressed by Dr Seema Paroha Prof. Biochemistry who detailed the principle of analysis for determining various constituents viz. COD, BOD, TSS, MLSS and TDS etc.
