NSI Kanpur organizes International Conference

During the International Conference at National Sugar Institute, the experts brainstormed on multiple issues of converting sugar industry waste to wealth, production of green energy,

technological interventions for improving plant efficiency, sugar scenario in various South East Asian and Middle East countries and on improving the sugarcane farm productivity. In their presentations, delegates for Indonesia, Sri Lanka and Fiji elaborated status of demand-supply scenario of sugar in the country. Herby Dikkumbura and Erami S Lewaravu from Sri Lanka and Fiji respectively desired to seek help of National Sugar Institute, Kanpur for training of their manpower and modernization of sugar factories. Geoff Kent, Sugar Research Institute, Australia discussed innovations in juice extraction technology for maximizing juice yield and thus to attain higher sugar recovery in the processing house. The stall of National Sugar Institute showcasing different sugars and value added products from waste of sugar industry remained centre of attraction at Expo. Prof. Narendra Mohan, Director was also felicitated by Herby Dikkumbura, Managing Director & Chief Executive Officer, Ceylon Sugar Industries, Sri Lanka.
