NATIONAL SUGAR INSTITUTE

Organizes

WEBINAR

on

ALTERNATE USES OF BAGASSE

About the webinar

Conventionally, bagasse is used as a fuel in the sugar industry. With the availability of power from non-conventional energy resources at lower tariffs, the bagasse based co-generation has taken a back seat. There are issues with tariffs, payments & renewable energy certificates (RECs). Due to all this, seeking alternate utilization of bagasse for production of particle boards, eco-ware cutlery, bioplastics & dietary fibres etc. has assumed greater importance. The webinar intends to throw light of various such aspects where bagasse holds immense potential for value-addition.

 **Date:** 2nd July 2020

 **Time:** 11:30 am – 1:00 pm IST

Registration Closes on: 1st July 2020 at 12:00 pm IST

Registration link:

<https://forms.gle/YDZfuwsRh26HpYjx5>

Link for the webinar will be shared after the registration is complete & on 1st July 2020 after 12:00 pm IST

Limited registration allowed

Hurry!
